#### Chapman Soundex Index -- Georgia Population Census 1880

*The following introduction originally appeared in a bound publication produced by Robert L. Sonfield, Jr. (CFA#9 most often referred to, by your editor, as Bob Sonfield). The beautiful printing and binding of the original publication was provided by Chas. P. Young Co. of Houston, TX. The essence of the publication is being presented here. The introduction has been slightly edited, but all of the index data remains intact.*

Soundex indexes were created for the 1880, 1900, 1910 and 1920 population schedules. The 1880 Soundex lists only those entries that relate to household including a child 10 years of age or under.

Soundex cards generally give the names, ages, and birthplaces of all members of the household plus state and county of residence, relationship to the head of household, etc. Each card also lists the volume number and enumeration district number of the census schedule from which the information was obtained.

The Soundex cards are arranged by State or Territory with a separate microfilm publication for each and thereunder by the Soundex system; i.e., alphabetically by the first letter of the surname, and thereunder by a code number representing the sound of the surname, and thereunder alphabetically by first name. The cards giving the names of persons in institutions are usually at the end of a state.

The Soundex filing system, alphabetic for the first letter of the surname and numeric thereunder as indicated by divider cards, keeps together names of the same and similar sounds but of variant spellings. For the name CHAPMAN the index cards is in the "C" segment of the index. The code number for CHAPMAN, worked out according to the system, is C155.

Census takers spelled names exactly as they sounded, often creating a problem for the researcher. All names in the following listing have been checked against the 1880 census records by Mr. Mic Barnette, professional genealogist, to insure the greatest accuracy possible, and difficult, unusual, or hard-to-read names have been checked against various published records of Georgia. Credit for the completion of this project goes to Bob Sonfield and Gil Alford, who Bob credits for being the guiding light for the entire undertaking.

Bob tells me that he has a few bound copies of the 1880 GA census available and is willing to make copies of specific pages for anyone. You can write to him at 770 S. Post Oak Lane, #435, Houston, TX 77056-1913 (the Official address of the Chapman Family Association.) Columns represent 1) Name, 2) Year of Birth, 3) Birthplace, 4) Spouse, 5) Page #.

My appologies to all of you who have made the effort to get photographs to me for inclusion in the newsletter. I had hoped to be able to include many of them in this issue -- it just wasn't possible. I simply ran out of space, time, and energy. This issue presented many editorial challenges and took much longer, than expected, to produce. It is packed with data stemming from primary sources, so do enjoy and please keep us apprised of new or additional data so that we may add the information to our records.
