

Chapmans in the 1900 Vermont Census

Data extracted by Irene Miller.
Computer input by Judy Jefferson.

Arranged by county, township, page, house, and family.

The 1900 census contains far more data elements than any previous census. Far too many fields of information to use the one line per person display used for censuses 1850-1880. Much of the data is "iffy" or conditional and does not apply to every person enumerated.

What follows is our first effort to arrange the data so that it will be useful for you. Let us hear from you if you have suggestions for change. Email aafa@chapmanfamilies.org or CFA Data Center, POB 1586, Florissant, MO 63031.
